SUMMARY

I am a Computer Engineering graduate with a strong foundation in backend development using both .NET and Django frameworks. I have hands-on experience in building scalable web applications, developing RESTful APIs, and managing databases using technologies like SQL Server and MySQL. Proficient in C#, ASP.NET Core, and Python Django, I have successfully implemented projects that showcase my problem-solving skills, adaptability, and ability to collaborate in team settings. Driven by a passion for creating innovative and user-centric solutions, I am eager to contribute my expertise to dynamic environments that foster learning and growth.

SKILLS

- Backend Development: Proficient in python(Django) and C#(Dot Net).
- Web Technologies: Solid understanding of HTML, CSS, JavaScript, and Bootstrap
- Version Control: Familiar with Git
- Problem-Solving: Strong analytical and logical thinking abilities.
- Database Management: Understanding of MySQL.

EDUCATION

Bachelor of Computer Engineering

School of Engineering, Pokhara University / Pokhara / September, 2019 - September, 2024

I have completed my undergraduate level education from this institution with a CGPA of 3.82.

Secondary level School

Oxford Secondary School / Nawalpur / July, 2017 - March, 2019

I have completed my secondary level schooling from this institution with the CGPA of 3.28.

EXPERIENCE

DotNet Developer

BISage pvt.ltd / Kathmandu / December, 2024 - Present

Working under guidance of senior developer. Continuously collaborating with the QA team in order to deliver quality product. Learning about the Microservice project and stored procedure of the database.

Backend Developer for EsujhavPetika - Digital Suggestion Platform

Designed and implemented a Django-based QR-powered platform for digital suggestion collection. Key features included language detection, profanity filtering, and semantic similarity analysis using advanced AI tools like Google Translate API. The platform ensured efficient feedback processing and user-friendly navigation, catering to both English and Nepali language

Backend Developer for Kitabghar - Marketplace for used books

Implemented the backend of the project using Django framework and Mysql database. Lead the team of four group member and deliver project within concise time with various limitations.

TRAINING/CERTIFICATION

Python with Django

Mindrisers Institute of Technology / 2024

This training is provided by the Mindrisers. In this training i learn about the advance python and Django framework.

MySQL

sql-practice.com / 2024

Gained skills in MySQL including database creation, table management, and performing CRUD operations. Learned to write efficient SQL queries, use joins, aggregation functions, and optimize performance with indexing and relationships.

Google Project Management: Professional Certificate

Merojob & Google / 2024

This certificate is provided by the Google through Coursera with the help of Merojob on completion of the six course.

C# with .Net

freeCodeCamp / 2023

This course is provided by the freeCodeCamp.org. In this course i learn the basic of C# including the basic concept of the Dot Net framework.

PROJECTS

Esujhavpetika

This project is the major project of my undergraduate study by using Django framework. I led a team of four members and was also involved in the backend development of the project.

<https://github.com/Himal144/esujhavpetika>

Kitabghar

This project was completed as a minor project during my undergraduate studies by using Django framework. I led a team of four members and was also involved in the backend development of the project.

<https://github.com/Himal144/kitabghar>

OrderWebApp

This is the .NET core project which is basic project for ordering the product.

<https://github.com/Himal144/OrderWebApp>

Microservice Project

This project is the microservice oriented project done using the .Net core.
